K-2/SPICE

Officers from the Troy Police Department's Directed Patrol Unit and Community Services Section visited 42 establishments in an attempt to gain a "pledge" from them to not sell K2 or other synthetic drug products. 39 of these establishments acknowledged the pledge and were given a Troy Police Department Placard to place in their window indicating this. Three establishments were unable to make the pledge due to corporate rules and the Police Department will be following up with them to gain their pledge. It is important to note that "not one" of these locations was selling the products at the time of our visit. The Troy Police Department would like to publicly recognize these establishments for their commitment not to sell K2 or any other synthetic designer drugs. We offer our thanks to the following businesses:

Online Police Reporting Now Available in Troy

The Troy Police Department has implemented an online police incident reporting system. A significant goal in this effort is to enhance our overall level of service by providing citizens the option and ability to file some of the more routine types of police reports conveniently online. Another goal is to optimize available time for police officers on patrol to more quickly respond to priority calls for service, detect and arrest individuals committing crimes, address traffic problems, and engage in other problem solving activities that enhance public safety. Often calls that are of a minor nature or are simply a request for a routine police report will find citizens waiting for what can be extended periods of time for a patrol officer to arrive due to the need to prioritize responses to more serious calls for service. Requiring citizens to come

to the police department in person to file these types of reports can also result in the inconvenience of waiting in long lines. In the face of fewer officers on patrol, it is anticipated that the effective use of this system could potentially reduce overall response time associated with more serious incidents, as well as increase available time for officers on patrol to engage in proactive police work.

Generally, routine incidents and minor crimes cannot be assigned for investigation due to the need to use investigative resources for more serious offenses. Banks, insurance companies, and cell phone carriers still require a police report to respond to identity thefts, process claims, or intervene in situations of harassment involving cell phone technology. This system will provide citizens with that resource conveniently and online.

Online reporting can be accessed in three ways:

- Through computer terminals located in the Troy Police Department lobby
- Through the City of Troy / Police Department website home page
- Through the City of Troy Police Department's

City of Troy Remains the Safest City in Michigan

On December 8, 2011, CQ Press released City Crime Rankings 2011-2012: Crime in Metropolitan America. CQ Press uses six crime categories to establish crime rate rankings for all cities with a population of at least 75,000 that report crime data to the FBI. The crime categories include: murder, rape, robbery, aggravated assault, burglary and motor vehicle theft. The rankings in the CQ report are based upon data reported to the FBI for 2010.

According to the CQ report, Troy has the lowest crime rate ranking in Michigan for cities with a population of 75,000 or more. Nationwide, Troy ranked 19th for cities with a population of 75,000 or more. Troy was ranked as the safest city in Michigan 10 of the last 14 ranking

periods, including the current one. Troy has achieved “Safest City” rankings as high as 5th and 6th in the United States, in 2006 and 2005, respectively. In fact, in other than 2009, when it ranked 38th overall, Troy has consistently ranked among the top 25 safest cities in the United States with populations over 75,000 since 1998.

The crime categories used by the CQ Press include all FBI Part 1 crimes, except larceny and arson. The FBI defines Part I crimes as the more serious crimes that occur in a community.

The number of Part 1 crimes reported to the Troy Police Department from 2000 through 2010 are as follows:

2000:2387	2004:1979	2008:1950
2001:2316	2005:2044	2009:1957
2002:2061	2006:2090	2010:1783
2003:2107	2007:1971	

Incidents of violent crime, which include murder, rape, robbery and aggravated assault, are extremely low. In 2010, there were only 53 violent crimes reported to the Troy Police Department, which represents less than 3.0% of the total Part 1 crime in Troy.

Troy Youth Assistance is sponsored by the Oakland County Circuit Court-Family Division, the City of Troy and the Troy School District with major funding through the Oakland County Board of Commissioners.

It should be noted that although 10 acts of criminal sexual conduct that occurred in Troy are classified as “rapes” in the FBI statistics, these types of assaults in Troy do not usually involve a victim being attacked by a stranger. There were no forcible rapes involving a stranger assaulting an unknown victim in 2010. Acts of criminal sexual conduct in Troy generally relate to incidents where one of the actors is a minor, complaints where incest or molestation by family members are alleged, or complaints of non-consensual acts between individuals who are acquainted with one another.

The Troy Police Department responded to a total of 35,018 incidents of all types in 2010. The Troy Dispatch center received approximately 173,000 incoming telephone calls in 2010, of which 40,335 were 911 calls. the commitment to public safety this community has consistently sought to maintain. He pointed out the significant number of community volunteers that have come forward to act as our eyes and ears in conjunction with the “Citizens on Patrol Program,” which was formed in the face of recent staffing cuts. The Chief stated, “The Troy Police Department is made up of professional men and women who work hard to identify and solve problems. They, like so many in our community, have had to work through some significant challenges in terms of the current economic climate. They have been called upon to make sacrifices, yet they continue to provide this community with a level of law enforcement service that I am convinced is second to none. We have become a smaller, but more streamlined organization. We value the resources we have been provided and are dedicated to utilizing those resources to deliver the best law enforcement service possible.”

City Manager Mr. John Szerlag also reinforced these latest rankings as a significant accomplishment. Mr. Szerlag stated, “The community has consistently identified public safety as a priority. City of Troy Meets the New State Standards for Accountability and Transparency

The City of Troy has a long history of fiscal transparency, evidenced by the information contained on its comprehensive website, its community conversations and best practices of cost reduction and fiscal responsibility. City Management engaged in a massive restructuring initiative to take control of its future to assure that Troy would deliver municipal services in the most cost efficient and effective manner.

When the State of Michigan introduced the Economic Vitality Incentive Program (EVIP), it was easily determined that Troy could meet the new state standards. The Performance Dashboards proposed by Governor Rick Snyder would include those financial and operating measures that are most important to the government and its citizens. The Dashboards provide a quick assessment of a community's performance in five key areas that affect families today: economic strength; health and education; value for government; quality of life; and public safety.
