Online Police Reporting Now Available in Troy

The Troy Police Department has implemented an online police incident reporting system. A significant goal in this effort is to enhance our overall level of service by providing citizens the option and ability to file some of the more routine types of police reports conveniently online. Another goal is to optimize available time for police officers on patrol to more quickly respond to priority calls for service, detect and arrest individuals committing crimes, address traffic problems, and engage in other problem solving activities that enhance public safety. Often calls that are of a minor nature or are simply a request for a routine police report will find citizens waiting for what can be extended periods of time for a patrol officer to arrive due to the need to prioritize responses to more serious calls for service. Requiring citizens to come to the police department in person to file these types of reports can also result in the inconvenience of

social security numbers and credit card numbers.

- Always maintain your credit cards and secure the credit card numbers.
- If you suspect that you have been the victim of credit fraud, call your credit card company and have them run a query of your charges.
- Never give your bank account numbers over the phone. Especially if unsolicited!

Identity theft continues to be the fastest growing crime in the world, and the city of Troy is no exception. We continually get reports of identity theft and fraud on a regular basis.

While it may not be totally avoidable, detecting the early signs of identity theft is one of the best ways to avoid extensive losses and damage to your credit history.

waiting in long lines. In the face of fewer officers on patrol, it is anticipated that the effective use of this system could potentially reduce overall response time associated with more serious incidents, as well as increase available time for officers on patrol to engage in proactive police work.

Generally, routine incidents and minor crimes cannot be assigned for investigation due to the need to use investigative resources for more serious offenses. Banks, insurance companies, and cell phone carriers still require a police report to respond to identity thefts, process claims, or intervene in situations of harassment involving cell phone technology. This system will provide citizens with that resource conveniently and online.

Online reporting can be accessed in three ways:

- Through computer terminals located in the Troy Police Department lobby
- Through the City of Troy / Police Department website home page
- Through the City of Troy Police Department's Facebook page

On December 8, 2011, CQ Press released City Crime Rankings 2011-2012: Crime in Metropolitan America. The crime categories used by the CQ Press include all FBI Part 1 crimes, except larceny and arson. The FBI defines Part I crimes as the more serious crimes that occur in a community.

The number of Part 1 crimes reported to the Troy Police Department from 2000 through 2010 are as follows:

2000:2387	2004:1979	2008:1950
2001:2316	2005:2044	2009:1957
2002:2061	2006:2090	2010:1783
2003:2107	2007:1971	

Incidents of violent crime, which include murder, rape, robbery and aggravated assault, are extremely low. In 2010, there were only 53 violent crimes reported to the Troy Police Department, which represents less than 3.0% of the total Part 1 crime in Troy.

It should be noted that although 10 acts of criminal sexual conduct that occurred in Troy are classified as “rapes” in the FBI statistics, these types of assaults in Troy do not usually involve a victim being attacked by a stranger. There were no forcible rapes involving a stranger assaulting an unknown victim in 2010. Acts of criminal sexual conduct in Troy generally relate to incidents where one of the actors is a minor, complaints where incest or molestation by family members are alleged, or complaints of non-consensual acts between individuals who are acquainted with one another.

The Troy Police Department responded to a total of 35,018 incidents of all types in 2010. The Troy Dispatch center received approximately 173,000 incoming telephone calls in 2010, of which 40,335 were 911 calls. This “Safest City” ranking represents an ongoing and significant achievement not only for the Troy Police Department, but for the community in general. It is a tribute to the residents; an excellent school system; strong prevention programs such as those provided by the Troy Community Coalition, Boys and Girls Club, Troy Youth Assistance, and many others; an effective District Court; and an active business community. The current ranking for the lowest crime rate in Michigan, reinforces the high quality of life that is offered in Troy. The Troy Police Department is dedicated to continuing to work with the community we serve, as well as City Management and City Government to assure this city remains a safe and attractive place to live, raise families, work, and recreate.

In commenting on the latest ranking, Troy Police Chief Gary Mayer spoke about the dedication and quality of the employees of the Troy Police Department. He noted the commitment to public safety this community has consistently sought to maintain. He pointed out the significant number of community volunteers that have

The Chief stated, “The Troy Police Department is made up of professional men and women who work hard to identify and solve problems. They, like so many in our community, have had to work through some significant challenges in terms of the current economic climate. They have been called upon to make sacrifices, yet they continue to provide this community with a level of law enforcement service that I am convinced is second to none. We have become a smaller, but more streamlined organization. We value the resources we have been provided and are dedicated to utilizing those resources to deliver the best law enforcement service possible.”

City Manager Mr. John Szerlag also reinforced these latest rankings as a significant accomplishment. Mr. Szerlag stated, “The community has consistently identified public safety as a priority. The on-going economic challenges required significant cost cutting efforts in every area of service delivery, including public safety. Nonetheless, we have worked hard to keep Troy safe. This latest ranking reinforces those efforts. It further underscores the excellence and professionalism of the City’s employees who remain dedicated to

The City of Troy has a long history of fiscal transparency, evidenced by the information contained on its comprehensive website, its community conversations and best practices of cost reduction and fiscal responsibility. City Management engaged in a massive restructuring initiative to take control of its future to assure that Troy would deliver municipal services in the most cost efficient and effective manner.

When the State of Michigan introduced the Economic Vitality Incentive Program (EVIP), it was easily determined that Troy could meet the new state standards. The Performance Dashboards proposed by Governor Rick Snyder would include those financial and operating measures that are most important to the government and its citizens. The Dashboards provide a quick assessment of a community's performance in five key areas that affect families today: economic strength; health and education; value for government; quality of life; and public safety.

"Troy has always been a very lean operation with a history of being fiscally responsible," City Manager John Szerlag said. "This Dashboard gives us one more way to provide transparency, accountability and a
